

VIVEKANAND COLLEGE, KOLHAPUR
(AUTONOMOUS)
Department of Chemistry (Academic Year 2018-19)

NOTICE

All the students of B.Sc. I and B..Sc III are hereby informed that Department of Chemistry is going on organize the various soil sample analysis.

The interested students should their names and themes to Dr.R.K Kalel and N.T. Mane .All the student should remains present for the same.

Soil Analysis Report (2018-19)

Kolhapur district is the southernmost district of Maharashtra and is one of the industrially and agriculturally developed districts. So, the Department of Chemistry has targeted to analyze around 100 soil samples collected from different areas of Kolhapur district for the purpose given as below and given some primary suggestions to farmers to improve health and fertility of soil.

Objectives of Soil Testing:

1. To check the status and health of soils in Kolhapur district.
2. To assess the type and extent of problem for reclamation of problematic soils.
3. To evaluate the fertility status of soils of a Kolhapur district.

We have analyzed four parameters such as pH, electrical conductivity, organic carbon, water holding capacity of all samples. Finally compiled all analytical data and given reports and primary suggestion to farmers.

Dr. D. B. Patil
Head
Dept. of Chemistry
