The greatness of this model lies in the fact that Amul was the first company to follow this model, and it was replicated all over the country under <i>Operation Flood in the 1970's</i>. The model ensures that there's efficiency and speediness in operations.</p> <p>The Amul model has helped India become the largest milk producer in the world.</p> <p>Through this documentary film student understands importance of milk cooperative in agricultural development.</p>
