**Developed D.C. Power Supply under Reuse of E-Waste**  
**Year: 2018-19**

The faculty member of Department of Electronics and B.Sc-III students has developed D.C.Power supply from Collected E-waste. Developed D.C.Power supply provides fixed 5V as well Variable 0V-24V.This Developed Power supply is useful in Electronics Lab for D.C.Power source for various experiment.
