① write a note of importance of communication in business

→ communication can be defined as the exchange of verbal and non-verbal information between a sender and receiver. (Swaab, 2009) Communication certainly takes on many forms in any given circumstance communication serves as the very backbone in the skeleton of any business without its proper use conversing all that needs to be done cease in taking place and certainly cripple a company. Simply doing business requires much communication.

Planning is essential in conducting business, knowing how to properly communicate these plans from the management roles to subordinate to require the skill of communication from persuading a customer to buy a product or service to merely giving out information regarding your business.

To go on body language is certainly an direct means of communicating what a person is thinking some example of non-verbal. Communication include picture company logos gestures body language who sits where in a meeting & even how long someone is kept waiting

2) Measures to overcome barriers in business communication.

1) clarity ideas before communication

The person sending the communication should be very clear in his mind about what he wants to say and he should know the objective of his message and therefore, he should arrange his thoughts in a proper order.

2) Communicate according to the need of the receiver.

The sender of the communication should proper the structure of message not according to his own level or ability but he should keep in mind the level of understanding or the environment of the receiver.

3) consult others before communication

At the time of planning the communication, suggestion should be invited from all the persons concerned. Its main advantages will be that all the time of preparing the communication plan will contribute to the success of the communication system.

4) Be aware of language, tone and content of message.

The sender should take care of the fact that the message should be formed in clear and beautiful language. The tone of the message should be not injure the feelings of the receiver.

Q.1 Write a notes on Importance of Communication in Buisness?

Communication can be defined as the exchange of verbal and non-verbal information between sender and Receiver.

1. Efficient and smooth running of enterprise.

The smooth and efficient functioning of enterprise entirely depends upon the effectiveness of the system of communication. It is provide necessary basic of direction and leadership. It is action in accordance with the desire of the Management.

2. Basic of decision Making -

Communication is the basic of decision making. It helps the Management to the take essential decision and conduct virtual operation. The quality of decision made in an organization, entirely, depends on the amount and quality of information available to the Management.

3. Proper planning and Co-ordination.

Communication is very helpful in planning and co-ordination the activities of Buisness if the system of communication is good, useful suggestions will come from the sub-ordinates of the Supervisors.

- 4. Creates mutual trust and confidence -
Effective Communication Creates Mutual trust and confidence between Management and labour. It give job Satisfaction to the workers.
- 5. For higheer productivity & Minimum cost -
Effective Communication between employers and employeses plays to a virtual role in obtaining maximum production with the minimum of cost.
- 6. Blinds people together -
Effective Communication is very helpful in planing. and induces the human elements in a organizations to develop a spirit of co-operation & produces the will to do woek before actually doing it.
In this way effective communication blinds the people of an organization together

2] Measures to overcome barriers in Buisness.

- 1. Calsify ideas before Communication.
The person Sending the communication should be veeey cleag in his mind about what he wants to say He should know the objective of his message and therefore he should arrange his thoughts in proopee codee.

2. Communicate according to the need of Receivers.
The level of understanding and encloution of the sub-ordinate must be very clear to the manager. Try to communicate according to their level.
3. Consult other before communicating.
It is disirable to involve others in level, opening a plan for communication, Consulting the sub-coordinates before communicating the message helps to gain their ready acceptness and willing co-operation.
4. Ensure proper Feedback:
Proper feedback helps in improving the communication process the sender should ask questions regarding the message convey & the reciever should be encouraged the Respond to Communication.
5. Follow up-Communication.
Regulae Follow up & Review of the instruction given to the sub-coordinates helps in Removing difficulties in implementing the instruction.

Assignment No. 4

- 1] Write a Note of Importance of communication in Business.

Communication can be defined as the exchange of verbal and nonverbal information between a sender and receiver. [Swab, 2009] communication certainly takes on many forms in any given circumstance. communication serves as the very backbone in the skeleton of any business without its proper use conveying all that needs to be done cease in taking place and certainly cripple a company. simply doing business requires much communication.

Planning is essential in conducting business. knowing how to properly communicate these plans from management sales to subordinates requires the skill of communication from persuading a customer to buy a product or service to merely giving out information regarding your business.

To go on body language is certainly an indirect means of communicating what a person is thinking. Some example of non-verbal communication include pictures, company logos, gestures, body language who sits where in a meeting and even how long someone is kept waiting. Non-verbal communication is in terms of a mimic gesture physical appearance is even tonality of expressions can level a lasting effect to those who business is done.

2] Measures to overcome barriers in business communication.

1] Clarify ideas before communication.

The person sending the communication should be very clear in his mind about what he wants to say. He should know the objectives of his message & therefore, he should arrange his thoughts in a proper order.

2] Communicate according to the need of the receiver.

The sender of the communication should prepare the structure of the message not according to his own level or ability, but he should keep in mind the level understanding or the environment of the receiver.

3] Consult others before communication -

At the time of planning the communication, suggestion should be invited from all the person concerned. Its main advantages will be that all the time of preparing the communication plan will contribute the success of the communication system.

4] Be aware of language tone & content of message.

The sender should take care of the fact that the message should be framed in clear and beautiful language. The tone of the message should be not injure the feelings of the receivers.
