**A Report
on
Role Play/ Enactment**

Objectives:

A journey of a thousand miles begins with a single step. ---Chinese Proverb.

The goals of a role playing/ enactment scenario are to expose students to different viewpoints or ways of thinking about a situation, expand their ability to resolve situations, and provide experience within a given context.

- To develop various fundamental performance skills.
- To make the students learn to deliver audience-appropriate theatrical presentations.
- To enhance drama enactment skills of the students.
- To help the students to visualize and participate in the dramas on stage that they learn through text.

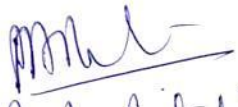

Of all the arts, drama involves the participant the most fully: intellectually, emotionally, physically, verbally, and socially. As players, students assume the roles of others, and they learn about becoming more sensitive to the problems and values of persons different from themselves. At the same time, they are learning to work cooperatively; for acting is a communal art- each person is necessary to the whole.

Under the guidance of Dr. P. A. Patil, Head , Department of English, Enactment Activity took place. On 02/03/2019 enactment of the play 'While the Auto Waits', on 05/03/2019 2019 'AdhunikMahabharat', on 07/03/2019 2019 'An Hour of Truth', on 09/03/2019 "The Necklace", and on 11/03/2019 enactment of the play 'A Second Chance' took place respectively. After enactment of each play a brief discussion took place among the students and faculty member.

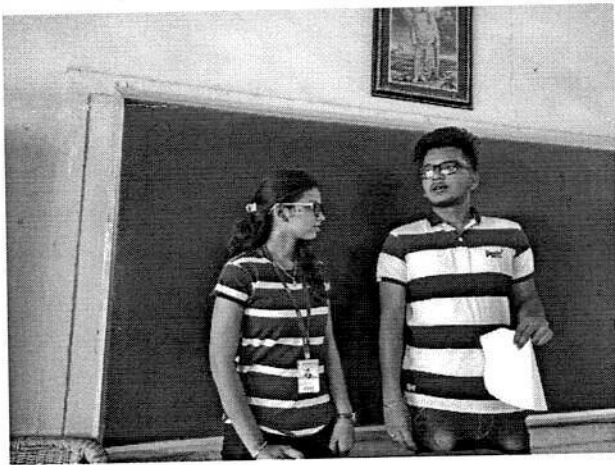

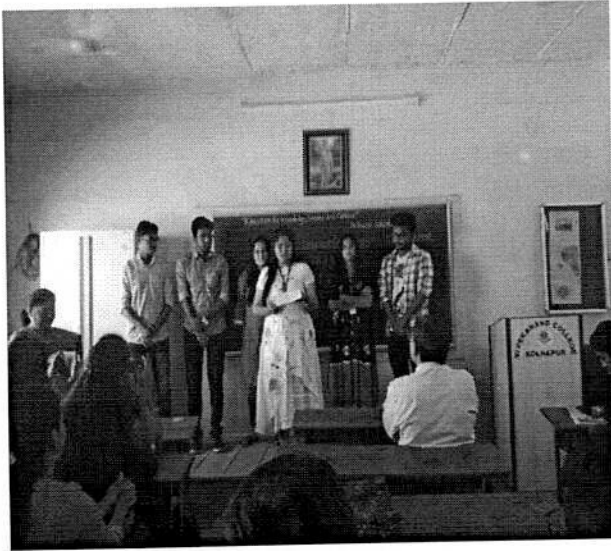

Dramatic play is very important in all stages of students' life. By taking part in creative activities students are learning to solve problems, coordinate, cooperate, take direction, take leadership and think flexibly in a fun and safe environment.

We would like to thank our Prin. Dr. S.Y. Hongekar sir for providing all facility and support to conduct such programmes.
