One Page Report

Study Tour Report (B.Sc. – II, Physics)

Department of Physics has arranged two day's educational study tour to Kelashi and Mahabaleshwar during 30 – 31 October 2023. We all (12 students and 03 faculty members) have boarded early morning of Monday, 30th October 2023 towards Kelashi. On the way to Kelashi, after passing Karad, we have made visit to Koyna Dam at Koyna Nagar at 10.00 AM. The Koyna Dam is one of the largest dams in Maharashtra, India. It is a rubble-concrete dam constructed on Koyna River which rises in Mahabaleshwar, a hillstation in Sahyadri ranges. It is located in Koyna Nagar, Satara district, in the Western Ghats on the state highway between Chiplun (44 KM) and Karad (58 KM). The main purpose of the dam is hydroelectricity with some irrigation in neighboring areas. Today the Koyna Hydroelectric Project is the largest completed hydroelectric power plant in India having a total installed capacity of 1,960 MW. A detailed documentary on Koyna Dam was shown to the students. After having Lunch at 03.00 PM, we headed towards Kelashi and reached at 05.00 PM. Kelashi is a village in Dapoli taluka, Ratnagiri district, Maharashtra state in Western India. Kelashi is a small seaside village, famous for its Mahalaxmi Temple (1100 years old temple) and sand hillocks. After watching the sunset at Kelashi beach, all the students were engaged in playing badminton, carrom and chess until the dinner was taken.

Next day on Tuesday, 31st October 2023, after having the breakfast, we headed towards Mahabaleshwar in morning at 10.00 AM. We reached Mahabaleshwar at around 03.00 PM and finished Lunch. Mahabaleshwar is located on the mountainous Sahyadri range of the Western ghats that run North to south along western coast of India. Mahabaleshwar region is the source of the Krishna River that flows across Maharashtra, Karnataka, Telangana and Andhra Pradesh. Mahabaleshwar is a vast plateau measuring 150 km², bound by valleys on all sides. It reaches a height of 1,439 m at its highest peak above sea level, known as Wilson/Sunrise Point. Mahabaleshwar is a major place of tourism in Maharashtra. Attractions include many hill side look out points with views of surrounding hills, valleys and forests such as Bombay Point, Arthur Seat, Kates Point, Lodwick-Wilson Point, and Elphinston Point. Wilson point is the only location in Mahabaleshwar where both sunrise and sunset can be seen. The town also has a man made lake dating back to British era called Venna Lake. The lake is a popular for boating. It is surrounded by a market and food stalls that are popular with the tourists where we all made shopping. At the end of the day, we started our journey towards Kolhapur and reached at 09.00 PM.
