Tour Report

Two days trip was organized by our department on 28th February 2023 and 1st March 2023 to visit Goa. The trip comprised of 11 students from T.Y. B.Sc. accompanied by our two teachers and one non-teaching staff. That day all students gathered in the college premises at 6.00 a.m.

We started our journey at 6.30 a.m. by bus. After a long journey of about 5 hours we reached at basilica of Bom Jesus church and we saw the mummy of renowned saint named Francis Xavier. After that we visited se-cathedral church which is the biggest church in Asia. Then we had our lunch in the hotel.

We visited some holy places-lord Shiva's Mangeshi temple and Statadurga temple. It was very peaceful experience for all of us. We did some shopping, had dinner and stay at night near Calangute beach. First day of trip was great.

On the second day we spend our morning at Calangute beach. Calangute beach is a little more energetic, regarded as South's most popular beach. Afterwards we visited Aguada fort, a well preserved seventeenth century Portuguese fort along with a lighthouse. Onwards we went to the Goa science centre and planetarium, located at Miramar, Panjim. The science centre consists of four galleries having interactive exhibits with concept of fun science, science of ocean, mirror magic exhibits & science part. It is a joint project of division of India's national council of science museums (NCSM) and govt. of Goa. We enjoyed planetarium show and a 3D show. It has many setups which demonstrate actual scientific concepts. One can spend hours reading to facts against each setup & enjoying the science behind each phenomenon. Overall it was great learning experience for all of us. We spend our hours at Goa science center.

At the last, we went to Mapusa municipal market. We did same shopping there we enjoyed our most adventurous days while staying in south Goa. We departed Goa at 6.00pm. We all had a safe & enjoyable journey with lot of information, fun and memories.
