13. Give suggestions to improve the overall teaching – learning experience in your institution. The IQAC of college has maintained a policy regarding collection of SSS feedback in order to keep transparency in students' responses. After every curricular, cocurricular or extra-curricular activity we collect feedback from students on respective activity. Additionally, to avoid biased feedback, the Third Year students are asked to submit their responses after passing out from the college. This affects the number of responses. However, whatever feedback we get is useful for improving the academic excellence of the college.

Most of the respondents reported that the teaching process is good, few suggestions are as below:

- Please arrange workshops and programs related to skill development for the department students.
- Arrange more events related to different themes like personality development, time management, soft skills and knowledge etc.
- Students do not attend programs like guest lectures etc. Teachers should encourage students to attend such programs.
- Increase the period of book lending.
- Extend the time of reading hall till 6.00 pm and keep library, especially the reading hall open even on holidays.
- Please arrange more guest lectures of experts from different Industries.

- Make mentoring more efficient regarding career guidance.
- Add more Computer Programming subjects in the syllabus that are useful in our Career.
- Increase the number of smart classrooms.
- Focus on improving our practical knowledge building students' confidence and providing some good placements.
- The college must plan annual educational trips or site visits.
- More cultural programmes should be arranged celebrating cultural diversity.

With the implementation of the improvement actions identified in this survey, we expect better results in the next year.
