VIVEK: Vision for Innovation, Values, Empowerment and Knowledge

Vision of the College: Dr. Bapuji Salunkhe established Shri Swami Vivekanand Shikshan Sanstha, Kolhapur with the motto “ज्ञान, विज्ञान आणि सुसंस्कार यांसाठी शिक्षणप्रसार” i.e. “Dissemination of Education for knowledge, science and culture”.

Our mission:

Empowering Marginalized Communities: Women and LGBTQAI: Indian constitution ensures equality, freedom, justice and dignity for all including women and transgender persons. Considering this, our college has established **Sansthamata Sushiladevi Salunkhe Center of Women Studies**. It aims to bring about gender justice, gender equality & awareness of gender equity among students & community. It works on the objectives of promoting gender equity (justness) through Teaching, Research, Training and Advocacy. It sensitizes people to acknowledge and appreciate women's role in society. The center also raises public awareness about gender discrimination and unequal status of women and LGBTQAI through different programmes. It assists for publications of research and critical texts with feminist analysis and gender issues.

As per the Universal Declaration, ‘all human beings (including LGBTQAI) are born free and equal in dignity and rights’. So to promote and protect their fundamental rights, and include them in mainstreaming, the programs were organized. By arranging seminars and workshop, we have

taken an initiative to empower these marginalized and vulnerable communities. They are even given access to representation in education. We nominate Vishal Pinjani, a gay and Amayara Adwani, transgender as the member of BoS in our college. The objectives of Empowerment of Women and LGBTQAI are:

- To enhance the community awareness, sensitization and campaign on rights of Women and LGBTQAI.

VISION FOR

INNOVATION

The National Seminars Transgender/ Gender issues aim to develop innovations to increase influence of LGBTQAI and Women. These activities foster gender equality and social inclusion, and enable women, men and LGBTQAI community across scales to empower themselves.

VALUES

The activities instill and promote noble values like culture, sacrifice, kindness, compassion, and truthfulness. Such type of activities aim to foster gender equity and neutrality

EMPOWERMENT

By redefining masculinity and negating all forms of gender-based violence, we try to make them empower them. Our students take initiatives for leadership and volunteerism in community service and by involving them in “real” issues--issues related to gender discrimination and acceptance of various sexual identities.

KNOWLEDGE

The programmes tries to inculcate knowledge regarding varieties of pressing conflicts, gender constructions, stereotypes, representations of gender-based images and gender induced expressions of sexuality. These programmes also develop research in gender studies. We try to instill the skills like critical thinking and problem -solving

OUTCOMES:

We nominated Vishal Pinjani, a gay and Amayara Adwani, transgender as the member of BoS in our college. They are even given access to representation in education.

We tried a noticeable social transformation—our faculty and students use their skills and **innovative** ability for transgender services. They encourage discussions among luminaries from various fields viz. academicians, policy Makers, Practitioners, Government officials, NGO's, Research scholars and pro-social personalities that will move beyond gender to encompass other dimensions of social inclusion.

By arranging health awareness programs and **empowerment** programs during Covid-19 situations, our students proved the Role Icons before young generation.

The programs help to break social taboos

Girls and **transgender** persons are seen confident as role models in expanding the dreams of education and career

There is progress in improving the **gender sensitivity** of the education system.

Concept Note -

Gender inclusion is a concept that transcends mere equality. It's the notion that all services, opportunities, and establishments are open to all people and that male, female and LGBTQAI stereotypes do not define societal roles and expectations. The development of marginalized community is a global concern in this new millennium. In this respect, gender mainstreaming has been approached as a key requirement in the social inclusion process and gender equality policies of many developed and developing countries.

This National Seminar will deal with removing the obstacles to marginalized community's public participation in all spheres of life – for example, economic, social, cultural and political – by motivating them full and equal participation and decision-making powers.

This seminar will focus on identifying processes of social exclusion and inclusion with regard to the personal, socio-cultural, political and economic aspects of the lives of indigenous people, particularly the women and LGBTQAI community. These marginalized communities' personal and socio-cultural life is useful for analyzing their political and economic deprivation.

The National Seminar on "Understanding Transgender (LGBTQAI) for Inclusive Society" aims to develop innovations to increase **voice and influence of LGBTQAI and Women**, foster **gender equality and social inclusion**, and enable **women , men and LGBTQAI community** across scales to **empower themselves**. The seminar adopts an **intersectionality** lens to analyze how gender intersects with other factors of social differentiation, such as socioeconomic status or ethnicity. By eliminating violence against women and LGBTQAI community, empowering them through increased economic opportunities, improving their participation in leadership and decision making and strengthening their groups and reduce inequalities and

exclusion, we can bring these people in mainstream. Promoting gender equality with a focus on identifying and redressing power imbalances is the empowerment of these marginalized communities.

Social inclusion means ensuring that socially excluded people have equal condition for realizing their full human rights and potential to contribute to national, political, economic, social and cultural development, and to benefit from the results.

Hence, it is the need of the hour to encourage and promote discussion among luminaries from various fields viz. academicians, policy Makers , Practitioners, Government officials, NGO's, Research scholars and professional personalities for the social transformation that will move beyond gender to encompass other dimensions of social inclusion.

Aims and Objectives:

- To understand how gender norms create inequalities.
- To examine how social exclusion and inclusion influence the marginalized communities' personal, socio-cultural, economic and political life within their own communities and mainstream society.
- To break stereotypes by training leaders with inclusive profiles.
- To explore the practice like Devadasi system in contemporary society and focus on the associated evils of it, namely, prostitution and begging.
- To suggest measures for rehabilitation of women in prostitution/Devadasi system.
- To identify the cultural and individual identities of these people (as their separate cultural and life style patterns create barriers that prevent mainstream people from integrating with them).

Expected Outcome : To come out with concrete suggestion for understanding transgender (LGBTQAI) for inclusive society.

Call for Papers :

The authors are cordially invited to submit their original work and unpublished research papers, survey papers, case studies and academic or scholarly articles, on any of the following themes or sub-themes only through electronic mode, to kavita@wade@gmail.com, prabhapatil21@gmail.com. Concept Note -

Gender inclusion is a concept that transcends mere equality. It's the notion that all services, opportunities, and establishments are open to all people and that male, female and LGBTQAI stereotypes do not define societal roles and expectations. The development of marginalized community is a global concern in this new millennium. In this respect, gender mainstreaming has been approached as a key requirement in the social inclusion process and gender equality policies of many developed and developing countries.

This National Seminar will deal with removing the obstacles to marginalized community's public participation in all spheres of life – for example, economic, social, cultural and political – by motivating them full and equal participation and decision-making powers.

This seminar will focus on identifying processes of social exclusion and inclusion with regard to the personal, socio-cultural, political and economic aspects of the lives of indigenous people, particularly the women and LGBTQAI community. These marginalized communities' personal and socio-cultural life is useful for analyzing their political and economic deprivation.

The National Seminar on "Understanding Transgender (LGBTQAI) for Inclusive Society" aims to develop innovations to increase **voice and influence of LGBTQAI and Women**, foster **gender equality and social inclusion**, and enable **women , men and LGBTQAI community** across scales to **empower themselves**. The seminar adopts an **intersectionality** lens to analyze how gender intersects with other factors of social differentiation, such as socioeconomic status or ethnicity. By eliminating violence against women and LGBTQAI community, empowering them through increased economic opportunities, improving their participation in leadership and decision making and strengthening their groups and reduce inequalities and

exclusion, we can bring these people in mainstream. Promoting gender equality with a focus on identifying and redressing power imbalances is the empowerment of these marginalized communities.

Social inclusion means ensuring that socially excluded people have equal condition for realizing their full human rights and potential to contribute to national, political, economic, social and cultural development, and to benefit from the results.

Hence, it is the need of the hour to encourage and promote discussion among luminaries from various fields viz. academicians, policy Makers , Practitioners, Government officials, NGO's, Research scholars and professional personalities for the social transformation that will move beyond gender to encompass other dimensions of social inclusion.

Aims and Objectives:

- To understand how gender norms create inequalities.
- To examine how social exclusion and inclusion influence the marginalized communities' personal, socio-cultural, economic and political life within their own communities and mainstream society.
- To break stereotypes by training leaders with inclusive profiles.
- To explore the practice like Devadasi system in contemporary society and focus on the associated evils of it, namely, prostitution and begging.
- To suggest measures for rehabilitation of women in prostitution/Devadasi system.
- To identify the cultural and individual identities of these people (as their separate cultural and life style patterns create barriers that prevent mainstream people from integrating with them).

Expected Outcome : To come out with concrete suggestion for understanding transgender (LGBTQAI) for inclusive society.

Call for Papers :

The authors are cordially invited to submit their original work and unpublished research papers, survey papers, case studies and academic or scholarly articles, on any of the following themes or sub-themes only through electronic mode, to kavita@wade@gmail.com, prabhapatil21@gmail.com.
