Study Tour at Town Hall Garden

18th February 2019

One Page Report

The present report is a compilation activity of a botanical excursion to Town Hall Garden, organized by the Department of Botany, Vivekanand College, Kolhapur (Autonomous) on 18th February 2019. The major aim is to acquire basic knowledge about botany and in detailed study of plants. The Townhall Garden of Kolhapur is home to the most exotic species of trees and plants. The precious trees of the tropical belt are the most unique feature of the garden. There are shrubs shooting out flowers of vivacious colors and fragrances. The lawns of the garden are wonderfully manicured and finely trimmed to suit the perfect evening strolls. The garden also has creepers and climbers supported by hedgerows, the sight of which reminds of a handsome garland. Prof. S.P Salokhe , Dr. A. R. Kasarkar, Dr. J.M Gorule, Dr. A.R. Alvikar, Ms. S. S. Wadkar and Ms. U. H. Godse were allotted to different groups of students. There are about 120 B.Sc-II studentms were attended this excursion. All walked through the garden, exploring the plants on the way. Students were made to identify the plants with their scientific name, family, identifying characters along with their importance. Students have observed various topiaries, bonsai, and vertical garden, plants used in the formation of hedges and also to develop other parts of the park. Field education adds vigor in learning processes and relieves monotones of indoor education. Field study is an essential part of botany as plants are best studied in their natural habitat. These tours also help to build good repo amongst students and teachers.
