**One Page Report**

As a part of B.Sc. Curriculum, two days trip was organized to Vengurla by Department of Botany, Vivekanand College, Kolhapur (Autonomous) on 15<sup>th</sup> December, 2018 for semester V (third year botany and Plant protection) students. The major objective was to familiarize the students with the wild and cultivated flora and ecology of the region. A group of 65 students were accompanied by Mr. S.P. Salokhe, Dr.A.R.Kasarkar and Ms.C.M.Dalavi, Ms. S.S. Wadkar of Botany department. The study of plants begins with the exploration of surrounding open area nearby Vengurla to study plants in their wild habitat. Vengurla's Fruit Research Centre is the most notable landmark besides monuments and temples. The Institute carries out research in improving the quality of fruit crops of the region, like mangoes, cashew nuts and Jamun where students studied some of the lab techniques related to fruit research and development. Thus, we successfully completed our Botanical tour. It was a very beautiful, different experience. Students enjoyed and learned so many new things about plants.
