"Education for Knowledge, Science and Culture."

—
Shikshanmaharshi Dr. Bapuji Salunkhe

**VIVEKANAND COLLEGE (AUTONOMOUS),
KOLHAPUR.**

Department of Botany

Objectives of Remedial Teaching

- To improve the academic performance of slow learners as compared to other students.
- To improve the academic skills and linguistic proficiency of the students in Botany subject.
- To raise their level of comprehension of basic subjects to provide a stronger foundation for further academic work.
- To strengthen their knowledge skills and attitudes in the particular subject.
- Provide learning support to students who lag behind their counterpart in academic performance.
- To prepare slower students for competitive exams.

Education for Knowledge, Science and Culture.”

"Report of Remedial Teaching Scheme"

School is replica of our society. Good citizens are needed to build a better society, which accomplishes the school. That is why the future of the country is said to shaping in school rooms. If we glance on socio-economically developed countries, their education system is linked to the development of the country. Schools work to create a better generation. Education has the power to change and shape the future of the country. Student is the soul of education system. To develop students overall attributes and personality development teacher should pay personal attention. For this purpose, NAAC and UGC suggested many effective schemes for the improvement of students such as Remedial Teaching, Advance Learning and Mentoring for HEL.

Remedial Teaching Scheme

Remedial Teaching Scheme helps slow learner student to improve academic excellence. For the planning and execution of this scheme teacher has to diagnose and identify the slow learners in the class. Further, teacher should diagnose strength and weakness of slow learners to improve academic performance of slow learners as compared to other students.

Remedial teaching scheme helps slow learners to overcome the lacunas in their previous knowledge and also it helps to find a remedy on slow learners existing learning issues. NAAC aims to add in the progress and the development of slow learners need competencies and learning objectives through this scheme. With the effective teaching teacher should instill the basic needed skills among the students by providing special guidance and attention. Further, teacher help them overcome the fear about subject and provide learning support to students who lag for behind their counterpart in academic performance.

Our Personal experiences about Remedial Teaching Scheme

As per the guidelines of NAAC and IQAC of our college the Dept. of Botany has organized Remedial Coaching Scheme for slow learners in B. Sc I, B. Sc II and B. Sc III students. For the execution of this scheme we have identified and selected the students below 40% marks of last final year. During 10th January, 2022 to 14th January, 2022 we conducted this

remedial coaching scheme in departmental level. After completion of remedial coaching scheme conducted the exam for these students. In this Remedial Coaching Scheme 90% students are satisfactory but 10% student require still some improvement.
