International Day for the Conservation of the Mangrove Ecosystem

Department of Botany, Vivekanand College, Kolhapur (Autonomous).
General Awareness Quiz.

The International Day for the Conservation of the Mangrove is observed annually on July 26th to raise awareness about the importance of mangrove ecosystems. Mangroves play a crucial role in protecting coastal areas from erosion, acting as natural barriers during storms and tsunamis. These unique habitats support a diverse array of plant and animal species, making them vital for biodiversity conservation. However, mangroves face threats from deforestation, pollution, and climate change, making this day essential for promoting their preservation and sustainable management. On this day, various initiatives are undertaken globally to protect and restore these invaluable ecosystems.

Quality Initiatives/ Activities Report

1. Name of Department: Botany

2. Name of Organized Activity: International Day for the Conservation of the Mangrove Forest 2023

3. Date/ Duration: 26th July 2023

4. Aims and Objectives:

1. **Raise Awareness:** To increase global awareness about the significance of mangrove forests as unique and vital ecosystems that support biodiversity, coastal protection, and carbon sequestration.
2. **Promote Conservation Efforts:** Encourage nations, communities, and individuals to implement conservation measures that safeguard existing mangrove forests, restore degraded areas, and prevent further destruction.
3. **Advocate for Policy Support:** Call on governments and policymakers to formulate and implement effective policies that address the threats facing mangrove forests, such as coastal development, pollution, and climate change.
4. **Foster Research and Education:** Support and promote scientific research on mangrove ecosystems and their benefits, while also providing educational opportunities to inform people about their importance and conservation needs.
5. **Enhance International Cooperation:** Facilitate collaboration among countries and organizations to share knowledge, expertise, and resources in mangrove conservation efforts, ensuring a unified global approach to safeguarding these critical habitats.

5. No. of beneficiaries: 232

6. Expenditure & funding agency:/collaborators: No

7. Brief description:

In honour of the International Day for the Conservation of the Mangrove Forest on July 26th, 2023, the Department of Botany at Vivekanand College, Kolhapur (Empowered Autonomous) hosted an online quiz competition on the Google Form platform. The quiz attracted 311 participants from across India, enlightening them about the crucial role of mangrove forests in coastal ecosystems, biodiversity conservation, and climate change mitigation. The event successfully

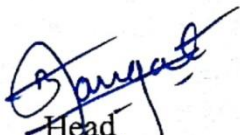

engaged students and the wider community, fostering a deeper understanding of the significance of mangrove forest conservation."

8. Outcome

The outcome of the online quiz conducted by department of botany, Vivekanand College, Kolhapur (Empowered Autonomous) for the International Day for the Conservation of the Mangrove Forest 2023 was remarkable. The quiz garnered significant participation from students and faculty, leading to heightened awareness about the vital role of mangrove forests in coastal ecosystems. Participants developed a deeper understanding of the ecological importance of mangroves in safeguarding coastal areas, supporting marine life, and mitigating climate change effects. The quiz successfully inspired a sense of urgency and commitment among the participants to actively engage in mangrove conservation and protect these critical habitats for a sustainable future.

The quiz also helped in increasing public awareness about the ecological importance of mangrove forests, leading to greater support for conservation efforts aimed at preserving and restoring mangrove ecosystems, increased commitment to implementing measures for the protection and sustainable management of mangrove forests.
