**Subject- Permission to conduct online quiz competition on the occasion of World
Ozone Day 2023.**

Respected Sir,

On the occasion of World Ozone Day (16th September, 2023) Department of Botany is going to organize online quiz competition (on Google form platform) to raise awareness about need for protection of ozone layer in today's world.

Kindly permit us for the same.

International Day for the Preservation of the Ozone Layer

Department of Botany, Vivekanand College, Kolhapur (Empowered Autonomous).
General Awareness Quiz

International Day for the Preservation of the Ozone Layer (World Ozone Day) is a day dedicated to raising awareness about the importance of the ozone layer in our Earth's atmosphere and the ongoing efforts to protect it. The ozone layer, primarily found in the stratosphere, acts as a shield, protecting life on Earth from harmful ultraviolet (UV) radiation from the sun. This day serves as a reminder of the environmental challenges posed by ozone-depleting substances, such as chlorofluorocarbons (CFCs) and halons, and the significance of the international agreements like the Montreal Protocol, which aim to phase out the production and use of these harmful chemicals.

**Internal Quality Assurance Cell
2022-23**

Quality Initiatives/ Activities Report

1. Name of Department: Botany

2. Name of Organized Activity: International Day for the Preservation of the Ozone Layer 2023

3. Date/ Duration: 16th September, 2023.

4. Aims and Objectives:

1. Raise awareness: It aims to educate individuals and communities about the role of the ozone layer in shielding us from harmful ultraviolet (UV) radiation.
2. Promote Environmental Education: Another goal is to promote environmental education and literacy, especially among the younger generation. It seeks to encourage schools, colleges, and institutions to incorporate ozone layer preservation into their curriculum.
3. Highlight Achievements: The day also serves as an opportunity to celebrate and acknowledge the achievements of the Montreal Protocol—a treaty that has successfully phased out the production and use of ozone-depleting substances.
4. Encourage Mitigation Efforts: It aims to inspire governments, industries, and individuals to continue their efforts to mitigate ozone layer depletion. This includes advocating for the development and use of ozone-friendly technologies and practices.
5. Mobilize Action: Ultimately, the day aims to mobilize collective action at local, national, and international levels. It encourages governments and organizations to renew their commitment to the protection of the ozone layer and to take concrete steps toward reducing ozone-depleting substances in the atmosphere.

5. No. of beneficiaries: 101

6. Expenditure & funding agency:/collaborators: No

7. Brief description:

The International Day for the Preservation of the Ozone Layer, celebrated on September 16th each year, is a global observance that emphasizes the critical importance of the ozone layer in protecting life on Earth. This day serves as a reminder of the ongoing efforts to combat ozone layer depletion, primarily through the Montreal Protocol. It aims to raise awareness about the dangers of ozone layer damage and the need for international cooperation to phase out harmful substances. Through educational activities and initiatives, it encourages individuals and governments to take actions that contribute to the preservation of this vital atmospheric layer and the overall well-being of our planet.

8. Outcome

The International Day for the Preservation of the Ozone Layer celebration by the Department of Botany at Vivekanand College (Empowered Autonomous) on September 16th, 2023, yielded several positive outcomes. The event significantly raised awareness among students about the crucial role the ozone layer plays in protecting our planet. The online quiz got a stupendous participation of 101 individuals. The participation of students from various age groups fostered a sense of environmental responsibility among the younger generation. The quiz served as a knowledge-sharing platform, disseminating information about sustainable practices and ozone-friendly technologies. The quiz organized by department of botany Vivekanand College (empowered autonomous), Kolhapur inspired participants to adopt eco-friendly practices, such as reducing the use of aerosols and supporting initiatives to phase out harmful chemicals. In sum, the International Day for the Preservation of the Ozone Layer celebration at Vivekanand College's Department of Botany in 2023 proved highly successful in terms of education and advocacy for environmental conservation. It left a significant imprint on participants and set the stage for ongoing efforts to safeguard the ozone layer.
