Head of the Mathematics department**

Celebration of Eco-Friendly Dasara

The Department of Botany at Vivekanand College, Kolhapur, marked the festival of Dasara in an eco-friendly and socially responsible manner, emphasizing the significance of environmental conservation. The event aimed to bring awareness about the importance of sustainable practices and connect traditional festivals with modern environmental ethics.

Dasara, also known as Vijayadashami, is a Hindu festival celebrated to commemorate the victory of Lord Rama over the demon king Ravana. It signifies the triumph of good over evil, and the celebrations typically involve the burning of effigies of Ravana. The festival, with its rich history, has traditionally centered on the symbolism of righteousness and moral values.

The eco-friendly Dasara celebration was organized by the Department of Botany on Thursday, October 10, 2024, the celebration commenced with the inauguration by Dr. S. P. Thorat Head of the Mathematics Department at Vivekanand College, Kolhapur (Empowered Autonomous institute). Dr. B. T. Dangat, Head of the Department of Botany, delivered an insightful speech that underscored the need to align our festivals with ecological considerations and ethical principles.

A core component of this event was the engagement of students in crafting *Bauhinia racemosa* (common english name- Bidi leaf tree; Vernacular name- Apata) plant leaves from waste paper. These handcrafted leaves were not only aesthetically pleasing but also symbolized a commitment to sustainability. These leaves were prepared in such a way that it enclosed tiny seeds of various herb, shrub and tree species. The students prepared these leaves as a thoughtful alternative to traditional plastic and non-biodegradable materials used during the Dasara festivities. Participants were encouraged to distribute these eco-friendly leaves, making a significant statement about their dedication to environmental preservation. The event was well-received by students and faculties of other departments of the college. It served as a platform to raise awareness about the environmental impact of festivals and the importance of making eco-conscious choices. The involvement further strengthened the message of sustainable living and cultural sensitivity.

The celebration of an eco-friendly Dasara by the Department of Botany at Vivekanand College, Kolhapur, was a commendable effort to recontextualize a traditional festival in a way that aligns with contemporary environmental values. The commitment to sustainability and the active participation of students made this event a success. It not only enriched the cultural ethos of the celebration but also emphasized the importance of harmonizing age-old traditions with the urgent need to protect our planet. This initiative serves as a model for celebrating festivals with a conscience and a deep sense of responsibility towards the environment.

1. Name of Department: Botany

2. Name of Organized Activity: Eco-Friendly Dasara

3. Date/ Duration: Tuesday 30th September 2025

4. Aims and Objectives:

1. To create awareness about the conservation of *Bhuhinia racemosa* (Apata) plants.

5. No. of beneficiaries:

6. Expenditure & funding agency:/collaborators: No

7. Brief description:

The Department of Botany at Vivekanand College, Kolhapur, marked the festival of Dasara in an eco-friendly and socially responsible manner, emphasizing the significance of environmental conservation. The event aimed to bring awareness about the importance of sustainable practices and connect traditional festivals with modern environmental ethics. The eco-friendly Dasara celebration was organized by the Department of Botany on Tuesday 30th September 2025, the celebration commenced with the inauguration by Dr. S. P. Thorat, Head of the Mathematics department. Dr. B. T. Dangat, Head of the Department of Botany, delivered an insightful speech that underscored the need to align our festivals with ecological considerations and ethical principles. Dr. Dangat emphasized that while celebrating Dasara, we should also reflect on our responsibility to protect the environment and nurture sustainable practices.

A core component of this event was the engagement of students in crafting *Bahuhinia racemosa* (common english name- Bidi leaf tree; Vernacular name- Apata) plant leaves from waste paper. These handcrafted leaves were not only aesthetically pleasing but also symbolized a commitment to sustainability. These leaves were prepared in such a way that it

enclosed tiny seeds of various herb, shrub and tree species. The students prepared these leaves as a thoughtful alternative to traditional plastic and non-biodegradable materials used during the Dasara festivities. Participants were encouraged to distribute these eco-friendly leaves, making a significant statement about their dedication to environmental preservation.

8. Outcomes:

1. It served as a platform to raise awareness about the environmental impact of festivals and the importance of making eco-conscious choices.
2. The involvement further strengthened the message of sustainable living and cultural sensitivity.
