	<p>Our college actively engages in student mentoring, where we systematically address a wide range of concerns encompassing academic challenges, psychological well-being & various aspects of personal & professional development. This comprehensive approach includes addressing issues such as understanding of exam pattern, scholarship schemes, ABC Id formation, exploring employment opportunities across diverse fields, fastening personality development. Our dedicated efforts involve not only understanding these challenges also guiding & assisting students in resolving them as needed. While delevoring responsibility as a mentor. Total 07 students from B.Sc-I were guided by me.</p>

	<p>Mentoring has become a necessity to resolve problems relating to the academics and other related issues faced by the students. It can build a healthy relationship between the students and teachers. Students have some difficulties of academics like solving sums, career guidance, preparation of competitive exam, health issues etc. While working as a mentor, I resolve their difficulties and gave solutions to overcome these. This developed healthy relationship between students and teachers. This activity helped to provide the support need to go forward in their academic journey.</p>
