### Activities Report

#### **One Page Report: Field visit to Graphic Design Department of Vivekanand college, Kolhapur**

1. **Name of Department:** -Computer Science
2. **Name of Organized Activity:** - “Field visit to Graphic Design Department of Vivekanand college, Kolhapur”
3. **Date/ Duration:** -13<sup>th</sup> July 2024
4. **Aims and Objectives:** -
  - To provide students with practical exposure to graphic design principles, tools, and techniques used in the industry.
  - To enhance students’ understanding of the creative process and workflow followed in professional graphic design projects.
  - To encourage interdisciplinary learning by observing the integration of computer science concepts with graphic design applications.
5. **No. of beneficiaries:** - 54
6. **Expenditure & funding agency:** -NIL
7. **Brief description:** - The Computer Science department organized a field visit to the Graphic Design Department of Vivekanand College, Kolhapur, on 13th July 2024. This visit aimed to provide students with firsthand exposure to the practical aspects of graphic design, which complements their theoretical knowledge in computer science. During the visit, students observed the use of various design software and tools, gaining insights into how creative ideas are transformed into visual content. They also learned about the workflow and processes involved in professional graphic design projects, including concept

development, digital illustration, and final output preparation. The experience allowed students to understand the interdisciplinary connection between technology and creativity, emphasizing the role of computer science in digital arts. Interactions with faculty and students of the Graphic Design Department enriched the understanding of design principles such as color theory, typography, and layout design. Overall, the visit motivated students to explore new career avenues and inspired them to integrate design thinking into their technical projects. This practical exposure was instrumental in broadening their vision and enhancing their skills for future academic and professional challenges. The visit proved to be a valuable learning experience that fostered enthusiasm and creativity among the participants.

**8. Outcomes: -**

- Students gained practical knowledge of graphic design tools and software, enhancing their technical skills beyond classroom learning.
- The visit improved students' understanding of the creative process and interdisciplinary collaboration between computer science and design.
- Students developed an appreciation for the role of design in technology-driven projects, motivating them to incorporate design principles in their future work.
