

# Vivekanand College, Kolhapur

(An Empowered Autonomous Institute)

## Department of Computer Science

The B.Sc. III Computer Science students are hereby informed that a **One Day Seminar on “Hosting a Web Application”** will be organized on:

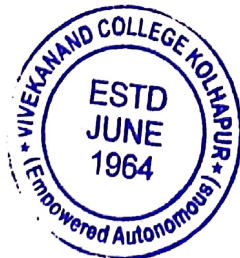

**Date:** 25th January 2025

**Time:** 12:00 Noon

**Venue:** Computer Laboratory

**Resource Person :** Vijay Mole , Director , Dream Computers

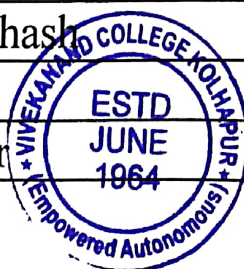

The seminar will provide practical knowledge of deploying and hosting web applications on servers and platforms. Attendance is strongly encouraged as it will be highly beneficial for academic and project work.

### Activities Report

#### One Page Report: One Day Seminar on "Hosting a Web Application"

1. **Name of Department:** -Computer Science
2. **Name of Organized Activity:** One Day Seminar on "Hosting a Web Application"
3. **Date/ Duration:** -25 January 2025
4. **Aims and Objectives:** -
  - To familiarize participants with the fundamental concepts, techniques, and platforms used in hosting and deploying web applications.
  - To provide hands-on experience in configuring web servers and deploying applications on various hosting platforms.
5. **No. of beneficiaries:** - 40
6. **Resource Person:** Mr. Vijay Mole (Director, Dream Computer)
7. **Expenditure & funding agency:** -NIL
8. **Brief description:** - The Department of Computer Science organized a One Day Seminar on "Hosting a Web Application" on 25th January 2025. The seminar aimed to introduce participants to the fundamental concepts, techniques, and platforms used in hosting web applications. It also focused on providing practical exposure by demonstrating how to configure web servers and deploy applications effectively. A total of 40 students and faculty members benefited from this academic activity. The seminar highlighted the importance of deployment skills for both academic projects and professional

growth. Participants gained insights into different hosting platforms, including shared and cloud-based solutions. Hands-on sessions helped attendees understand real-time challenges in web application deployment. The seminar created awareness of best practices related to security, scalability, and reliability in hosting. Mr. Vijay Mole, Director of Dream Computer, was the resource person for the session. Overall, the seminar was highly informative, interactive, and valuable for enhancing practical knowledge among the learners.

**9. Outcomes: -**

- Participants acquired practical skills in web server configuration and application deployment across different hosting platforms.
- Students and faculty developed an understanding of security, scalability, and reliability issues related to hosting web applications.
- The seminar enhanced participants' readiness to apply deployment techniques in academic projects and real-world professional environments.
