- Q.1) Consider a database student.lst containing rollno, name, marks in 3 subjects. calculate total, percentage & create a awk report as follows.

students Report

```
-----
s.no  rno  name  mark1  mark2  mark3  total  Per  remark
-----
```

- Q.2) Implement a shell function reverse to print reverse of entered number.

1) \$gedit student.awk

```
BEGIN {
```

```
    printf("      students Report\n")
```

```
    printf("-----\n")
```

```
    printf("s.No : Rno : name : mark1 : mark2 :
```

```
    mark3 : total : Percentage : Remark\n")
```

```
    printf("-----\n")
```

```
    }
```

```
{
```

```
    total = $3 + $4 + $5
```

```
    per = total / 3
```

```
    if ( per < 35 )
```

```
    {
```

```
        grade = "Fail"
```

```
    }
```

```
    elseif ( per < 50 )
```

```
{  
    grade = "second class"  
}  
elseif (per < 70)  
{  
    grade = "first class"  
}  
elseif (per > 70)  
{  
    grade = "Distinction"  
}  
printf("%d %d %s %d %d %d %d %f %s",  
NR, $1, $2, $3, $4, $5, total, per, grade)  
}  
End {  
    printf("n ----- n")  
}  
$gawk -F "!" -f student.awk student.lst
```

```
Q2) $ gedit reverse.sh
# Define function
reverse()
{
    echo "first argument" $1
    no = `expr $1 % 10`
    rev = `expr $rev + $no`
    $1 = `expr $1 / 10`
    return $rev
}
# invoke function
echo "enter number"
read a
reverse $a
answer = $?
echo $answer
```

Assignment - 1

Q. 1. Write a note on history of Java programming language.

→ History of Java:

1) History of Java starts with green team.

2) In 1990, sun Microsystems funded an internal research "Green" to develop a language for digital devices.

3) James Gosling Mike Sheridan and Patrick Naughton initiated this project in 1991 and resulted in a programming language "Greentalk" which then renamed as "oak".

4) There was already a programming language called 'oak' so green team again renamed it with 'Java' in 1995, the name originally taken from Java coffee.

5) Java was originally designed for small embedded system in electric application like set top boxes, TVs, VCRs, Toasters, Microwaves, washing machines etc.

6) So Java originally developed by James Gosling and team at sun Microsystems which is now a subsidiary (2010) of oracle corporation.

7) Java is general purpose and object oriented programming language.

8) The extension of Java program file is .java

9) First Java version was released in 1995 with name JDK Alpha and Beta.

10) In very next year, 1996, JDK 1.0 released and since then number of Java versions have been released

Q. 1. Write a short note on Data, Data Sharing and Databases.

→ We are drenched in data through many ways of life and so many of our problems can be solved using large amounts of data existing at personal and societal levels.

Data :-

1) Most of the people are familiar with the term 'data'.

2) We see it everywhere. And if you have a cell phone, then chances are this is something you have encountered frequently.

3) The most common cell phone plans around the world include unlimited talk and text and a limited amount of data, 1GB/day, 2GB/day, 5GB/month, 20GB/month, etc.

Data sharing :-

1) You may have come across terms like 'data sharing' when picking a family plan for your phone(s). Sharing your personal data (photos, texts, videos) with your friends or family members or data sharing in other words like sharing data available at other cells using wi-fi etc.
