	<u>Report 2021-22</u>			
	Total 7 students were assigned to me as mentees for the academic year 2021-22.			
	<p>The mentoring period of these students were started after the COVID-19 epidemic period so the major issues raised during the session was regarding not being able to attend regular classrooms as they are coming from rural areas and not having a bus at regular time also, some have and problems with online classes as the internet network is poor in their areas so it was difficult to addressing the gaps in online and offline classes. The issues were taken positively and I motivated the students to believe in their potential, do their best and adapt to the changing circumstances.</p>
