Mentor-Mentee Report

2021-22

In education, mentoring plays a pivotal role in nurturing the academic and personal growth of students within college campus. In our college, faculty work as mentors for students to provide guidance, support, and encouragement throughout their academic journey. In academic year 2021-22, total 16 student of B. Sc-III class were allocated for mentoring. First, we conduct the meeting with all allocated student to know the mentoring process, aim and benefits. In first meeting, we discuss about college campus, facilities, scholarship, and importance of supporting units like NCC, NSS and Sport etc. Also, we aware the importance of various skills and value added courses executing in various department of college.

In this academic year, students were discussing on various issue and problems related to personal, college, academic, career opportunities, etc. Also, we provide the psychosocial support to the mentees during the college examination. The mentoring sessions helped to identify the cause of the poor performance and stress related issues of mentees. With the mentoring process, we are able to develop a healthy relationship between teachers and students.
