Mentor-Mentee Report

2022-23

A large number of students who come to our college from different social, cultural and economic backgrounds may face academic and adjustment challenges. To cope with such problems and nurture the academic and personal growth of students within our college campus a Mentor Mentee Programme for all students has been developed. In our college, faculty work as mentors for students to provide guidance, support, and encouragement throughout their academic journey. In academic year 2022-23, total 20 student of B. Sc-II class were allocated for mentoring. First, we conduct the meeting with all allocated student to know the mentoring process, aim and benefits. In first meeting, we discuss about college campus, facilities, scholarship, co-curricular activities and importance of supporting units like NCC, NSS and Sport etc. Also, we aware importance of the various skills and value added courses executing in various department of college.

With frequently meetings with mentees, we mostly discussed the issue related to examination, future carrier opportunities and personal growth. Also, we provide the psychosocial support to the mentees during the college examination. The mentoring sessions helped to identify the cause of the poor performance and stress related issues of mentees. With the mentoring process, we are able enhance student success, professional growth and create the healthy relationship between teachers and students.
