1. Name of the Department - Department of Geography

2. Activity – Workshop on “AI tools & Techniques for Research Excellence

3. Aims and Objective

- 1) To introduce the fundamentals of Artificial Intelligence (AI) and its relevance to academic research and higher education.
- 2) To familiarize postgraduate students with AI-based research tools for literature search, information retrieval, data analysis, and academic writing.
- 3) To develop skills in effective literature review using AI-assisted search, summarization, and reference-management techniques.
- 4) To enhance research productivity by demonstrating how AI can assist in generating research ideas, developing research questions, and organizing research work.
- 5) To introduce AI tools for data analysis and visualization, enabling students to interpret and present research findings effectively

4. No. of beneficiaries:

Total 301 participants from whole state, professors and college students were present for this program online.

Male	Female
175	126

5. Outcome

- 1) Improved understanding of AI and its applications in academic and research activities.
- 2) Enhanced awareness of AI-based research tools for literature search, academic writing, data analysis, visualization, and reference management.
- 3) Improved literature review skills through the effective use of AI-assisted search and summarization tools.
- 4) Enhanced research productivity by using AI for research planning, idea generation, organization, and documentation.
- 5) Development of prompt engineering skills to obtain relevant and reliable outputs from generative AI tools.
- 6) Improved data analysis and visualization skills through exposure to AI-supported analytical techniques.
- 7) Better academic writing skills, including drafting, editing, summarizing, and improving the clarity of research work.
- 8) Greater awareness of ethical AI use, including plagiarism, copyright, data privacy, bias, and academic integrity.
- 9) Improved critical thinking and verification skills to evaluate the accuracy and reliability of AI-generated information.
- 10) Increased confidence in using AI tools for postgraduate research projects, dissertations, and publications.
