Quality Initiatives/ Activities Report

1. **Name of Department:** Microbiology (PG)
2. **Name of Organized Activity:** Study tour
3. **Date/ Duration:** 21/02/2025
4. **Aims and Objectives:**
 - To acquaint students with type of research work going on national institutes
 - To know applications and working of different instruments used in Microbiology research.
5. **No. of beneficiaries:** 31 (Male-13; Female -18)
7. **Brief description:**

PG Department of Microbiology organized a study tour for M.Sc. part II students at "ICMR- National Institute of Traditional Medicine", Belagavi, Karnataka. Two teachers Dr. S. D. Mali, and Ms. M. M. Nadkarni from the department accompanied the students on this study tour. During the tour, students visited various departments of institute where students got knowledge about various types of researches going on in the department. Similarly, students saw various instruments used in the study of Life Science and got knowledge about principle, working, and applications of these instruments.

8. Outcomes:

- Students acknowledged with different research areas of Microbiology.
- Students got encouraged to do doctoral research after completion of post-graduation.

M. Sc. II Study tour at ICMR- NITM

Date- 21/02/25

The PG department of Microbiology arranged and permitted the study tour at the ICMR – National Institute of Traditional Medicine (NITM), Belagavi, Karnataka. This report is a summary of One-Day National institute visit to ICMR-National institute of Traditional Medicine

The date allowed according to permission was 21st February, 2025. From the department two teachers named Dr. S. D. Mali, and Ms. M. M. Nadkarni with total 31 students from M. Sc. part II visited the institute. The route of study tour was fixed as Vivekanand College, Kolhapur to National Institute of Traditional Medicine, Belagavi, Karnataka.

As per schedule of the study tour, we visited the National Institute of Traditional Medicine at 2.30 pm on 21st February. Initially in conference room we were shown a documentary regarding NITM and type of work done in the institute. There we also saw the museum for ethno medicinal plants. After that we visited clinical research laboratory where clinical research is done using zebrafish. In natural product chemistry lab various instruments like GC-MS, HPLC, and FTIR are used to study organic, medicinal, and inorganic chemistry. Research students in Microbiology and Molecular Biology laboratories explained us work carried out on infectious diseases, and drug resistance. In Viral diagnostic research lab (VDRL) Dr. Madhavi Patil (Scientist 'B') explained us diagnostic techniques of viral diseases. She also explained us working of instruments used in biotechnology research like gel doc system, PCR machine, etc. We also visited immunology, immunodiagnosis, tissue culture laboratories. The visit ended with research scholars demonstrating their proficiency in Bioinformatics Research Lab. Overall the visit at ICMR-NITM was a great experience for the students. Students got lot of knowledge about research areas in the subject and they got extremely motivated to do doctoral research in the subject at such national institutes.
