Department of Physics

One Page Report

Name of the Department	Department of Physics																
Name of the Activity	Sky Observation at Ashram Shala – Girgaon, Tal: Karveer, Dist: Kolhapur, Maharashtra.																
Date / Duration	18/02/2019 at 08.00 PM – 12 PM																
Aims and Objectives	1) The night sky is full of objects to view. Its important for the high school students to study the celestial spheres. 2) The stars appear to form a sphere surrounding the Earth, so it is not by accident that it is named the Celestial Sphere. It is also important to understand that all of the stars visible in the night sky are a part of our galaxy - the Milky Way.																
No. of Beneficiaries	<table border="1"><tr><td rowspan="2">Teachers</td><td>Male</td><td>02</td><td rowspan="2">02</td></tr><tr><td>Female</td><td>00</td></tr><tr><td rowspan="2">Students</td><td>Male</td><td>37</td><td rowspan="2">53</td></tr><tr><td>Female</td><td>16</td></tr><tr><td colspan="3" style="text-align: right;">Total</td><td>55</td></tr></table>	Teachers	Male	02	02	Female	00	Students	Male	37	53	Female	16	Total			55
Teachers	Male		02	02													
	Female	00															
Students	Male	37	53														
	Female	16															
Total			55														
Expenditure and Fundings	College Funds																
Brief Discussion	In order to help find our way around the night sky, various groupings of stars are identified as constellations. These constellations make up mythic characters like Pegasus, Andromeda, and Orion for the northern hemisphere, and objects like Telescopium, Tucana and Crux for the southern hemisphere.																
Outcomes	High school students got information about celestial spheres, constellations and distant stars in simple language.
