Study Tour Report (2022 – 23)

Introduction:

In the academic year 2022 – 23, Department of Physics had organized study tour at Malvan, Sindhudurg Fort, Tarkarli, Kunkeshwar Temple dated from 05th – 06th March 2023 for M.Sc. – II (Physics) students. All about 11 students and 03 teachers, Dr. S. S. Latthe (Tour In-Charge), Mr. A. V. Shinde, Miss. A. U. Patil, Mr. R. D. Pujari (Lab Assistant) were participated in Study Tour.

Objective:

The expected outcome includes providing situation for the student – teachers to learn and get acquainted with the process of organising a study tour and understanding the environment around.

Tour Report:

Our journey started from college campus at 07.00 AM on 05th March 2023 with the guidance of our Principal Dr. R. R. Kumbhar. We reached our first destination Sindhudurg Fort at 12.45 noon on the same day. Sindhudurg Fort was the naval headquarters of the Marathas. Chatrapati Shivaji Maharaj built the fort area to safeguard the maritime borders of his kingdom and from neighbouring rulers. The foundations of the fort were strengthened by using molten lead mixed with mortar. More than 70,000 kilos of iron was used for casting its foundation. The construction of the fort began in 1664 and took three years to complete. Sindhudurg is spread over 48 acres with the fortified walls, 29 ft high and 12 ft thick, stretch for two miles. As many as 52 bastions with embrasures for cannons guard its walls. Some bastions have secret exits that lead out of the fort. On the request of the fort architect, a handprint and a footprint of the Maratha King is embedded on a slab within the fort. Along with the customary shrines of Hanuman, Jarimari and Goddess Bhavani, the fort is most famous for the temple dedicated to Shivaji. Apart from the temples, a few tanks and three sweet water wells are also present in the fort area. After Lunch we reached Tarkarli beach to see the sunset. We reached our designated hotel (Bhakt Niwas) in Kunkeshwar on Sunday night at 10.00 PM.

On Monday, 06th March 2023 after quick refreshment, we visited a Shiva temple, built in 1100. It is situated on the bank of Arabian Sea and is also known as Konkan Kashi. Shivaji was a frequent visitor to the temple. At 10.00 AM, we headed to kalamawadi dam. Kalamawadi Dam is a gravity dam on Dudhaganga river near Radhanagari. Kalamawadi dam is the biggest dam in Kolhapur District. The dam construction was initiated by the Government of Maharashtra in 1983 and was completed in 1999. It is being used for irrigation as well as hydro-electricity power generator. With a water storage capacity of 28 Thousand Million Cubic (TMC), the dam is located amidst a scenic surrounding with the backdrop of a thick forest cover. With sweet memories our tour concluded on Monday, 06th March 2023 at 07.30 PM.
