Physics when I got admission into this excellent institution, and interestingly I was the first student who got admission into this particular faculty.</p> <p>Frankly speaking, since it was the first batch, there were many areas which needed some betterment here and there. But overall it was good experience learning there. The staff was amazingly good, laboratory, reasearch and project opportunities were decent. Library was good though. Overall it was amazing experience.</p>

There was extracurricular activities were taken by department. Project presentation, study tours, group studies, information about updated science, seminars arranged of multiple people. That was very informative and joyful tasks handled by the department. Staff especially Malgaonkar sir encouraged for the new tasks. His knowledge is all around. He supported always for the new things. A special thanks to sir for this. I learnt lot of things from him. Also thanks to the department who encouraged me for my new journey. --Advocate Namrata Patil
