Alumini Feedback

28 Feb 2025

Name - Sutar Umesh (Batch 2013-15)

Designation - Data Scientist at Transunion

After visiting the Statistics department after long time I saw that the infrastructure and learning environment had improved. I was very happy to see that the Syllabus has been updated and department had included different softwares such as R, python, Minitab and Advance Excel, most of the practical work is based on this software.

I feel that for student to become expert in this software they need to continuously practice using different real life dataset.

US

Umesh Sutar
(Data Scientist, Transunion)

Name: Anand Khandekar (Batch: 2013)

Designation: Statistical Programmer at Cytel

It's our pride that our department started MSc. Statistics & MSc Applied Statistics. Due to this, our students have the opportunity to pursue their master's degrees. Thank you very much for the fabulous infrastructure provided by our management.

I have read the syllabus of the above courses. The syllabus is good enough to meet industry and academic needs. However, I would like to suggest signing MoUs with industries and arranging at least two or three programs through them so that students will gain exposure to real life.

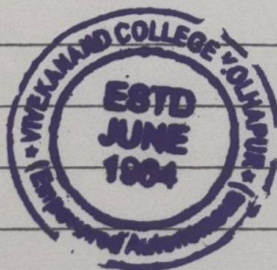

A Khandekar
(Anand Khandekar)

Name - Sharad Mengane (Batch 2015)

Designation - Data Scientist at.

It was a wonderful experience to visit the department after long time. I was happy to see the positive academic environment. I suggest that the department of statistics should continue to connection with alumni by organizing regular alumni interactions, guest lectures, career guidance sessions and workshop on modern statistical software and emerging technologies.
