CO-PO Attainment Policy

CO- PO Attainment Policy

Introduction:

Vivekanand College, Kolhapur (Empowered Autonomous) follows a structured CO-PO mapping process.

As per the educational vision, mission, and goals set by the UGC, NAAC, and the parent institution, different program outcomes and course outcomes were agreed upon after consulting with all stakeholders. More than that, COs (Course Outcomes) and POs (Program Outcomes) work together to make sure that the coursework fits with the program's main goals.

This connection makes education better and makes sure that students learn the right information, skills, and abilities.

It is clear from learning outcomes what a student should be able to do or show when the learning process is over. These outcomes are all about putting information, skills, and competencies to use in real life.

Objectives:

1. To carry out CO PO mapping meticulously ensuring that each course outcome contributes to the overall program outcomes.
2. To provide a structure for direct and indirect evaluation of learning outcomes.
3. To assess the fulfilment of graduate attributes.
4. To provide feedback regarding future updation of curricula.

As per New Education Policy and NAAC, higher education, learning outcomes are defined at following three levels:

1. Program Outcomes (POs): Broad outcomes that reflect the overall goals of a program.
2. Program Specific Outcomes (PSOs): Outcomes specific to a particular program or specialization.
3. Course Outcomes (COs): Outcomes related to individual courses within the program.

These outcomes should be observable and measurable, allowing college to assess student achievement effectively.

Our college is committed to ensuring the quality of its educational programs by aligning course outcomes (COs) with program outcomes (POs). This policy outlines the process for attaining these outcomes and measuring their achievement.

1. Course Outcomes (COs):

COs are statements that describe what students are expected to know and be able to do by the end of a course. They are specific, measurable, achievable, relevant, and time-bound objectives.

2. Program Outcomes (POs):

POs are broader statements that describe the knowledge, skills, and attitudes that students are expected to acquire by the time they graduate from a program. They reflect the core competencies of the program.

They are also known as intended learning outcomes, instructional objectives, or educational objectives. Learning outcomes guide curriculum design, assessment, and instruction, emphasizing what students learn rather than what they are taught.

Policy Statements:

1. Mapping COs to POs:

Each course will have a set of COs that are aligned with the program's POs. A curriculum mapping matrix will be developed to illustrate these alignments.

2. Assessment of COs:

Faculty will use various assessment methods to measure the achievement of COs. These methods may include assignments, quizzes, exams, projects, presentations, and rubrics.

3. Assessment of POs:

POs will be assessed indirectly through the evaluation of COs. A program-level assessment plan will be established to evaluate the overall achievement of POs.

4. Data Analysis and Improvement:

Assessment data will be analyzed regularly to identify areas for improvement. This data will be used to revise COs, POs, assessment methods, and teaching strategies.

5. Continuous Improvement:

The college will continuously review and improve this policy to ensure its effectiveness in achieving COs and POs.

Implementation:

The responsibility for implementing this policy lies with various stakeholders:

i. Faculty:

Faculty members are responsible for developing COs aligned with POs, selecting appropriate assessment methods, and evaluating student learning.

ii. Program Coordinators:

Program coordinators are responsible for ensuring that COs for courses within their program are aligned with POs and that assessment plans are in place.

iii. Assessment Committee:

The assessment committee will oversee the implementation of this policy, develop and review assessment instruments, and analyze assessment data.

Evaluation:

Students will benefit from a clear understanding of what is expected of them in each course and how their learning contributes to the overall program goals.

Faculty will have a framework for developing and assessing courses that are effective in achieving program outcomes.

The college will be able to demonstrate the quality of its educational programs to stakeholders such as accreditation agencies and potential employers.

This policy is a vital step towards ensuring that graduates from our college possess the knowledge, skills, and attitudes necessary for success in their chosen fields.

VIVEKANAND COLLEGE, KOLHAPUR (AUTONOMOUS)
INTERNAL QUALITY ASSURANCE CELL

PROCEDURE FOR ATTAINING COS, PSO'S & POS

• Procedure for attaining COS, PSO'S & POS

1] Every departmental committee will finalize course outcomes for each course after discussing with all teachers of the department and BOS members.

2] PROCEDURE FOR ATTAINMENT OF CO'S:

2.1 : Course outcomes will be attained by direct and indirect methods.

- Direct method (Attainment): We will consider the following criteria in the direct attainment.

I) Internal tests will be conducted based on Cos.

II) Class performance activities like assignments, tutorials, quiz, any other activities related to COs will be conducted.

III) End semester external examination marks will be considered.

-Indirect method (Attainment):-

I) In this method we consider feedback from students, parents, alumni on the preformed questionnaires.

2.1 : A common format of programmed excel sheet will be used for finding the average attainment of COs.

2.2 : The following level table will be used for three target levels, low, medium and high attainment for direct and indirect methods.

Level	Average percentage
Low(1)	41-50 %
Medium(2)	51-60 %
High(3)	61% above

2.3: Target level for attainment of COs will be decide on the average marks of that course in the previous year.

2.4: Attainment level calculation for each CO = 80 % of direct level +

20 % of indirect level of that CO.

2.5: Attainment level of all course outcomes of a course will be displayed in table format.

CO Attainment- (I) Direct method → Internal assessment [A] & External assessment [B] → % of students secure more than average marks in [A] → % of students secure more than average marks in [B] = $(A+B)/2$ → Direct average percentage. → Direct level value. $[A^I]$

CO Attainment- (II) Indirect method:

Indirect percentage of students more than average grading → Indirect level value $[B^I]$

Final Attainment value

CO attainment for i^{th} course $(C_i) = 80\% \text{ of } A^I + 20\% \text{ of } B^I$

3. CO-PO mapping

- Each course outcome will be mapped to one or more POs.

4. **PROCEDURE FOR ATTAINMENT OF POS / PSOS**

4.1] Program outcomes will be attained through direct and indirect methods.

- **Direct Attainment: -**

We will consider all the courses which are mapped to particular PO. Then direct attainment value will be calculated based on following formula.

Direct PO attainment: -

$(\text{Sum of average attainment level of course outcomes mapped to PO}) / (\text{total no of courses}).$

• **Indirect Attainment: -**

In this method we consider feedbacks of students, parents, alumni on the pre designed questionnaires.

4.2] Final PO attainment for j^{th} PO

$$PO_j = \frac{\sum_{i=1}^m APO_{ij} \times C_i}{\sum_{i=1}^m APO_{ij}}, j = 1, 2, \dots, k,$$

Where m – number of courses

k – number of POs

C_i - Course attainment for i^{th} course.

$AP O_{ij}$ - Average PO level for j^{th} PO corresponding to i^{th} course.

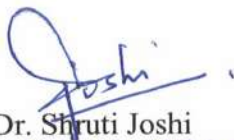

Level	PO attainment range
Poor	$0.5 \leq \text{PO attainment value} < 1$
Average	$1 \leq \text{PO attainment value} < 1.5$
Good	$1.5 \leq \text{PO attainment value} < 2$
Very Good	$2 \leq \text{PO attainment value} < 2.5$
Excellent	$2.5 \leq \text{PO attainment value} \leq 3$

4.4] Target levels for attainment of POs / PSOs will be set based on the performance of the previous year.

4.5] Same procedure will be used for obtaining the attainment of PSOs.
