# About Naandi

Naandi, which in Sanskrit means a new beginning, is one of the largest and fastest growing social sector organization in India working to make poverty history. Naandi has been partnering with various state governments, corporate houses, international and national development organizations and showcasing large scale successful delivery of public services.

Currently, Naandi is demonstrating the value of creating new social entrepreneurs by setting up social businesses that are even more efficient and closer to community needs than traditional grant-funded activities. Thus, safe drinking water, support to elementary school going urban children, skilling for unemployed youth and agriculture marketing are the four ventures in existence over and above the free services of Naandi.
