Concept Note -

Gender inclusion is a concept that transcends mere equality. It's the notion that all services, opportunities, and establishments are open to all people and that male, female and LGBTQAI stereotypes do not define societal roles and expectations. The development of marginalized community is a global concern in this new millennium. In this respect, gender mainstreaming has been approached as a key requirement in the social inclusion process and gender equality policies of many developed and developing countries.

This National Seminar will deal with removing the obstacles to marginalized community's public participation in all spheres of life – for example, economic, social, cultural and political – by motivating them full and equal participation and decision-making powers.

This seminar will focus on identifying processes of social exclusion and inclusion with regard to the personal, socio-cultural, political and economic aspects of the lives of indigenous people, particularly the women and LGBTQAI community. These marginalized communities' personal and socio-cultural life is useful for analyzing their political and economic deprivation.

The National Seminar on "Understanding Transgender (LGBTQAI) for Inclusive Society" aims to develop innovations to increase **voice and influence of LGBTQAI and Women**, foster **gender equality and social inclusion**, and enable **women, men and LGBTQAI community across scales to empower themselves**. The seminar adopts an **intersectionality** lens to analyze how gender intersects with other factors of social differentiation, such as socioeconomic status or ethnicity. By eliminating violence against women and LGBTQAI community, empowering them through increased economic opportunities, improving their participation in leadership and decision making and strengthening their groups and reduce inequalities and

exclusion, we can bring these people in mainstream. Promoting gender equality with a focus on identifying and redressing power imbalances is the empowerment of these marginalized communities.

Social inclusion means ensuring that socially excluded people have equal condition for realizing their full human rights and potential to contribute to national, political, economic, social and cultural development, and to benefit from the results.

Hence, it is the need of the hour to encourage and promote discussion among luminaries from various fields viz. academicians, policy Makers, Practitioners, Government officials, NGO's, Research scholars and professional personalities for the social transformation that will move beyond gender to encompass other dimensions of social inclusion.

Aims and Objectives:

- To understand how gender norms create inequalities.
- To examine how social exclusion and inclusion influence the marginalized communities' personal, socio-cultural, economic and political life within their own communities and mainstream society.
- To break stereotypes by training leaders with inclusive profiles.
- To explore the practice like Devadasi system in contemporary society and focus on the associated evils of it, namely, prostitution and begging.
- To suggest measures for rehabilitation of women in prostitution/Devadasi system.
- To identify the cultural and individual identities of these people (as their separate cultural and life style patterns create barriers that prevent mainstream people from integrating with them).

Expected Outcome : To come out with concrete suggestion for understanding transgender (LGBTQAI) for inclusive society.

Call for Papers :

The authors are cordially invited to submit their original work and unpublished research papers, survey papers, case studies and academic or scholarly articles, on any of the following themes or sub-themes only through electronic mode, to kavitativade@gmail.com, prabhapatil21@gmail.com. About RUSA Sponsored Faculty Development Programme:

Dr. S. Mahesh

Let's be an extraordinary one!

Why we have a blinkered vision that sees just black and white, and miss the shades of grey? Shri Swami Vivekanand Shikshan Sanstha's Vivekanand College, Kolhapur (Autonomous) invites you to participate in A RUSA-sponsored National Seminar on Transcending the Boundaries of Gender organized by Sansthamata Sushiladevi Salunkhe Centre of Women's Studies (SSSCWS), Internal Quality Assurance Cell (IQAC) and knowledge partner Abhiman, Kolhapur on Friday January 22, 2021 at 10.30 a.m.

In modern societies across the globe, gender affects every aspect of life. In India, girls are continually killed off simply because of their biological sex. This National Seminar on TRANSCENDING THE BOUNDARIES OF GENDER aims to foster gender equality, redefine masculinity and negate all forms of violence. It throws light on varieties of pressing conflicts, gender constructions, stereotypes, and representations of gender-based images.

Here are the pro-social personalities to express their experiences. We know that there is no better teacher than experience. They work against the intense stigma, discrimination and violation of human rights in society. This National Seminar on TRANSCENDING THE BOUNDARIES OF GENDER focuses on the connection between sexuality and violence and how it represents and defines gender roles, male violence, and female passivity. It is crucial to understand and critically observe the meanings behind these representations.

This seminar will also focus on patriarchy in the Indian Media, Bollywood, and Television. Perceptions of women in the news, Bollywood, and television, especially those related to sex, sexual violence, and sexual freedom are to be discussed from a critical standpoint. It will also discuss the history and the evolution of language related to criticize women and rape culture.

Critical views will be taken to assess why society is seemingly male-dominated in many areas and suggestions will be made to avert the atrocities.
